

TOWNSHIP OF GROSSE ILE

MICHIGAN

Notice to Residents

Re: Televising and Cleaning of Sewers

The Township of Grosse Ile has developed a program to televise the sewer lines in your area. Through a selective bidding process, this contract was awarded to Safeway Transport, Inc of Romulus, Michigan. Work on your street or easement will commence within 7-days upon receipt of this Notice during the hours of 7:00am to 5:00pm Monday thru Friday.

Because a number of sewer manholes are located in rear yard easements, it may be necessary for the contractor to use some properties as an access to these manholes. If you are one of these yard owners, we ask your permission and cooperation so the contractor may expediently perform their tasks and move on.

The Televising process will take place first and in situations needed cleaning of the sewers with high-pressure water jetting will be used. As a result hydrant use, will be necessary. The natural sediment of the hydrant lines may be disturbed causing discoloration of the water. This does not in any way contaminate the water. Allowing your water to settle for one to two hours with a minimum use and then running it for one to two minutes will clear any discoloration. If there is any discoloration DO NOT DO LAUNDRY. During work on the sewer some residents may or may not experience water and/or odor coming from your drains or toilets. We ask that you keep toilet lids closed and if possible, place a towel between the lid and seat with a towel to reduce possible water spray from the toilet bowl. To reduce the chance of odor, please add water to all floor drains. During and/or immediately following the cleaning process the sewer will be televised to evaluate their condition.

Your cooperation during this work is greatly appreciated. Should you have any questions or concerns regarding this work, please do not hesitate to contact the Township of Grosse Ile at 734-676-4422 or Safeway Transport at 734-992-8564.

Very truly yours,

Township of Grosse Ile
