

Earth Day

Celebrate our beautiful planet and learn how to grow a Healthy, *Green* and Environmentally Friendly Lawn!

Wednesday, April 22, 2015 6:30 – 9:00 pm

St. James Episcopal Church, 25150 E. River Rd, Grosse Ile

Healthy Lawn Care Program for Watershed Protection

Gary Eichen, Manager of Mike's Tree Surgeons in Troy will educate us on how to grow a green and healthy lawn, not only safe for our families and pets, but great for the environment! Achieve a green, healthy lawn, while reducing the amounts of fertilizer and weed control used. Eliminate weed control chemicals altogether!

Those who prefer the convenience of a lawn service are also invited to attend. Information about the Michigan Green Industry Association-sponsored program of companies who follow the guidelines of the Healthy Lawn Program will help you select a genuinely environmentally friendly lawn service company.

6:30 pm Registration, refreshments, entertainment

7:00 pm Healthy Lawn Care Program

8:00 pm Lawn Care Q&A

8:15 pm Alternative Lawn Practices

8:30 pm Grosse Ile's Heritage Tree Program

Learn how to identify, measure and register heritage trees on your property!

We all live in the Great Lakes watershed. We all need to do our part to protect our natural resources, especially after last summer's Lake Erie drinking water crisis in Monroe and Toledo.

Many thanks to St. James Episcopal Church for the use of their meeting hall. Enter at the north side entrance.
